

# BEFORE you hire a "DJ" - Educate yourself & Compare.

Entertainment is the most important decision you'll make in planning your special event.

It will Represent you & Set the mood, ambiance and tempo of your event & Create memories for all the guests.

Beware, that there are no set standards to become a DJ. And, the industry is full of pitfalls because of this. I advise you to call around and compare. Use the chart below to achieve some basic understanding. Then **visit** 3 to 4 DJ's.

It would be wise for any one to meet at least 3 to 4 DJ's before hiring one. Use my comparison chart (below).
